MUHAMMAD IDREES

Full Stack .NET Developer

+92-343-3030289 | devmidrees@gmail.com | LinkedIn | GitHub | Lahore, Pakistan

PROFESSIONAL SUMMARY

Results-driven Full Stack .NET Developer with 2+ years of experience building scalable web applications using ASP.NET Core, MVC, Blazor, and C#. Skilled in RESTful APIs, microservices, and Clean Architecture. Focused on writing maintainable, testable code in agile environments.

TECHNICAL SKILLS

Languages: C#, SQL

Frameworks & Technologies: ASP.NET Core, ASP.NET MVC, Blazor, Razor Pages, Web APIs, AJAX

Data Access & ORM: Entity Framework Core (EF Core), ADO.NET, Repository Pattern, Unit of Work

Frontend: HTML5, CSS3, jQuery, AJAX, Bootstrap

Databases: Microsoft SQL Server, PostgreSQL

Architecture: MVC Architecture, Clean Architecture, Microservices Architecture

Tools & Platforms: Visual Studio, SSMS, Git, GitHub, Docker

WORK EXPERIENCE

Full Stack .NET Developer *April 2025 – April 2026*

2B Vision Technologies | Lahore, Pakistan

- Collaborated in the development of enterprise-level applications using ASP.NET Core, Blazor, and EF Core.
- Designed and implemented RESTful APIs and integrated frontend interfaces with microservices-based backend architecture.
- Enhanced application performance and maintainability by applying Clean Architecture, Repository Pattern, and Unit of Work design patterns.
- Participated in Agile development cycles including code reviews, sprint planning, and debugging to ensure high-quality software delivery.

.NET Developer *April 2024 – March 2025*

Netrix Solutions | Dera Ismail Khan, Pakistan

- Developed and maintained scalable web applications using ASP.NET Core, MVC, and Blazor across multiple client-facing project phases.
- Built and integrated RESTful Web APIs supporting core business workflows, enabling seamless communication between Blazor frontend components and backend services.

PROJECTS

Human Resource Management System (HRMS) *March 2025*

Technologies: ASP.NET Core, Blazor, EF Core, Microservices, SQL Server

- Architected a modular HRMS using ASP.NET Core microservices and Blazor with dynamic, role-based UI and data pagination.
- Implemented modules for employee profile management, department records, leave tracking, and secure JWT-based user authentication.

HED Social Media Platform *December 2024*

Technologies: ASP.NET MVC, jQuery, AJAX, SQL Server

- Built an academic collaboration platform with secure login, post feeds, like/comment functionality, and real-time data handling.
- Implemented responsive UI using jQuery and AJAX for seamless user experience without full-page reloads.

Online FIR System *December 2023*

Technologies: ASP.NET MVC, jQuery, AJAX, SQL Server

- Developed a secure citizen-facing web portal enabling online FIR filing and real-time status tracking.
- Implemented AJAX-driven interactions for real-time updates, improving user engagement and system responsiveness.

EDUCATION

Bachelor of Science in Computer Science **CGPA: 3.76 / 4.0**

Gomal University, Pakistan

CERTIFICATIONS

- Career Essentials in Software Development — Microsoft & LinkedIn (2024)

ACHIEVEMENTS

- Ranked 2nd at JMC College-Level Project Competition (December 2024), recognized for innovation and technical excellence.
